**The industry leader in water based technology.**

## Clear Acrylic Topcoat

GF Enduro Clear Acrylic is our workhorse commercial topcoat. It produces the clearest film of all our topcoats. With a high solids content, it builds quickly. For everyday production work, Clear Acrylic is our choice because of its combination of performance and value pricing. It is designed for spray applications, and does not require thinning. Stir well and strain before using.

Sheens: Flat-10, Satin-35, Semi-Gloss-50, & Gloss-90  
Available in Gallons, 5-Gallon Pails, & 55-Gallon Drums.

[Enduro Crosslinker](#) can be added to enhance performance.

## Clear Poly Topcoat

GF Enduro Poly Topcoat is a high performance, urethane-fortified finish. The polyurethane modification provides added toughness and abrasion resistance. Clear Poly can be used on any project where more solids (31%) and durability are desired. It is designed for spray applications and does not require thinning. Stir well and strain before using.

Sheens: Flat-10, Satin-35, Semi-Gloss-50, & Gloss-90  
Available in Gallons, 5-Gallon Pails, & 55-Gallon Drums.

[Enduro Crosslinker](#) can be added to enhance performance.

## Sanding Sealer

Sanding Sealer is a clear undercoats that form an easily sandable foundation for most GF Enduro water based top coats. High solids make for a fast film-build, and it dries tack free in 10-20 minutes. Sanding Sealer is designed for spray applications and does not require thinning. Stir well and strain before using.

**Note:** Only Pre-Cat Sealer can be used under Pre-Cat Urethane.

Available in Gallons, 5-Gallon Pails, & 55-Gallon Drums.

## Pre-Cat Urethane

GF Enduro Pre-Cat Urethane utilizes the latest resin and cross linking technology to provide maximum toughness, durability, and water resistance. It is comparable to conversion varnish or pre-catalyzed products. Use Pre-Cat Urethane for your most demanding applications. It is designed for spray applications and does not require thinning. Stir well and strain before using.

Sheens: Flat-10, Satin-35, Semi-Gloss-50, & Gloss-90  
Available in Gallons, 5-Gallon Pails, & 55-Gallon Drums.

[Enduro Crosslinker](#) can be added to enhance performance.

## Pre-Cat Sanding Sealer

Pre-Cat Sanding Sealer is a clear undercoats that form an easily sandable foundation for most GF Enduro water based top coats. High solids make for a fast film-build, and it dries tack free in 10-20 minutes. Pre-Cat Sanding Sealer is designed for spray applications and does not require thinning. Stir well and strain before using.

**Note:** Only Pre-Cat Sealer can be used under Pre-Cat Urethane.

Available in Gallons, 5-Gallon Pails, & 55-Gallon Drums.

## Exterior 450

Exterior 450 is a clear water base varnish designed for brush or spray exterior wood applications. It provides outdoor woodwork with a tough, protective finish that will withstand the rigors of sun, rain, and wind. Exterior 450 is fortified with UV absorbers and mildewcides to minimize fading and extend the performance.

Available in Gallons, 5-Gallon Pails, & 55-Gallon Drums.

Sheens: Satin, Semi-Gloss & Gloss

# The industry leader in water based technology.

## Industrial Stains

GF Industrial Stains are formulated with a proprietary blend of pigments and dyes to provide rich colors. Designed for production use, they are liquid versions of the General Finishes' consumer semi-gel water based wood stains. They may be sprayed or hand applied. Custom colors available.

Available in Gallons, 5-Gallon Pails, & 55-Gallon Drums.

## Industrial Dye Stains & Concentrates

GF Industrial Dyes are beautiful, color-rich, lightfast water base dye stains that dry fast and do not require wiping. Available in 12 colors, they are non-flammable, and may be topcoated with selected GF Enduro topcoats. Twelve Dye Concentrates are also available; ideal for toning and custom tinting applications.

Available in Quarts, Gallons, 5-Gallon Pails, & 55-Gallon Drums.

## Pigmented Acrylic Lacquer

GF Enduro Pigmented Acrylic Lacquer is a high solids pigmented finish. It is ideal for cabinets and millwork. Stocked in Black and White, custom colors are available upon request. White and Clear can be used as tint bases to achieve endless colors. Can be used with *General Finishes Glaze Effects*.

Available in Gallons, 5-Gallon Pails, & 55-Gallon Drums.

Sheens: Satin-35, Semi-Gloss-50

[Enduro Crosslinker](#) can be added to enhance performance.

## Custom Colors and Matching

We can custom match your colors. Most fan decks are loaded into our color matching computer.

## White Undercoat

GF Enduro White Undercoat is a pigmented primer designed to perform like our Sanding Sealer. High solids make for a fast film build while providing an opaque, primer foundation for white/off-white finishes. It dries tack free in 10-20 minutes. It is designed for spray applications and does not require thinning. Stir well and strain before using.

Available in Gallons, 5-Gallon Pails, & 55-Gallon Drums.

## GF Milk Paints

GF Milk Paints are acrylic based liquid paints available in over twenty popular stock colors. They utilize new interior/exterior furniture-grade technology and are formulated for both indoor and outdoor projects. Designed for painting wood surfaces, GF Milk Paint levels well and pulls down flat and smooth. They are ideal for glazing to create antique hues and may be top coated for added durability.

Available in Gallons, 5-Gallon Pails, & 55-Gallon Drums.

Sheens: Eggshell-15

20 stock colors. Custom colors available upon request.

## Glaze Effects

Glaze Effects are translucent water based colors used to create beautiful decorative finishes such as distressing, marble, shabby chick, burnishing, color washing, rag rolling, and wood graining. Use over Water Based Wood Stains, Milk Paints, and Pigmented Acrylic Lacquer. Glaze Effects can be inter-mixed or layered to create custom colors. They may also be layered over one another to create deeper, richer looks.

Available in Quarts, Gallons, 5-Gallon Pails, & 55-Gallon Drums.

## Additives

**Extender:** Additive to extend the open time, flow, and leveling of any water based stain or topcoat.

**Crosslinker:** Catalyst for crosslinking our topcoats, providing additional durability and performance.
