Skin sensitization

Category 1

Label elements

Warning

Hazard statements

May cause an allergic skin reaction.

#### **Precautionary Statements - Prevention**

Avoid breathing dust, fume, gas, mist, vapors and spray. Contaminated work clothing must not be allowed out of the workplace. Wear protective gloves. **Skin** IF ON SKIN: Wash with plenty of water and soap. If skin irritation or rash occurs: Get medical advice and attention. Wash contaminated clothing before reuse.

#### **Precautionary Statements - Disposal**

Dispose of contents and container to an approved waste disposal plant.

#### Other information

No information available.

# 3. Composition/information on ingredients

#### Substance

Not applicable.

#### Mixture

| Chemical name                       | CAS No.    | Weight-% | Information Review | Date HMIRA filed and<br>date exemption<br>granted (if applicable) |
|-------------------------------------|------------|----------|--------------------|---|
| Dipropylene glycol monomethyl ether | 34590-94-8 | 1 - 5    | -                  | -   |
| Hexanedioic acid, dihydrazide       | 1071-93-8  | 0.1 - 1  | -                  | -   |

\*The exact percentage (concentration) of composition has been withheld as a trade secret.

# 4. First-aid measures

#### **Description of first aid measures**

| General advice  | Show this safety data sheet to the doctor in attendance.   |  |
|---|--|--|
| Inhalation  | Remove to fresh air.   |  |
| Eye contact   | Rinse thoroughly with plenty of water, also under the eyelids.   |  |
| Skin contact  | Wash with soap and water. May cause an allergic skin reaction. In the case of skin irritation or allergic reactions see a physician. |  |
| Ingestion   | Rinse mouth.   |  |
| Most important symptoms and effects, both acute and delayed |  |  |

| Symptoms  | Itching. Rashes. Hives. Prolonged contact may cause redness and irritation.   |  |
|---|---|--|
| Effects of Exposure   | No information available.   |  |
| Indication of any immediate medica  | al attention and special treatment needed   |  |
| Note to physicians  | May cause sensitization in susceptible persons. Treat symptomatically.  |  |
| 5. Fire-fighting measures   |   |  |
| Suitable Extinguishing Media  | Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.   |  |
| Unsuitable extinguishing media  | No information available.   |  |
| Specific hazards arising from the chemical  | Product is or contains a sensitizer. May cause sensitization by skin contact.   |  |
| Explosion data<br>Sensitivity to mechanical impac   | st None.  |  |
| Sensitivity to static discharge   | None.   |  |
| Sensitivity to static discharge<br>Special protective equipment and<br>precautions for fire-fighters  | None.<br>Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear.<br>Use personal protection equipment.  |  |
| Special protective equipment and  | Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear.<br>Use personal protection equipment.   |  |
| Special protective equipment and precautions for fire-fighters 6. Accidental release measurement  | Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear.<br>Use personal protection equipment.   |  |

# 7. Handling and storage

Prevention of secondary hazards

#### Precautions for safe handling

Advice on safe handling Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes or clothing. Ensure adequate ventilation. In case of insufficient ventilation, wear suitable respiratory equipment. Do not eat, drink or smoke when using this product. Take off contaminated clothing and wash before reuse.

#### Conditions for safe storage, including any incompatibilities

**Storage Conditions** 

Keep containers tightly closed in a dry, cool and well-ventilated place. Keep from freezing.

Clean contaminated objects and areas thoroughly observing environmental regulations.

### 8. Exposure controls/personal protection

#### Control parameters

#### **Exposure Limits**

The following ingredients are the only ingredients of the product above the cut-off level (or level that contributes to the hazard classification of the mixture) which have an exposure limit applicable in the region for which this safety data sheet is intended or other recommended limit. At this time, the other relevant constituents have no known exposure limits from the sources listed here.

| Chemical name                 | ACGIH TLV                   |        | OSH        | A PEL                     |    | NIOSH                       |

# 10. Stability and reactivity

| Reactivity                         | None under normal use conditions.         |
|------------------------------------|---|
| Chemical stability                 | Stable under normal conditions.           |
| Possibility of hazardous reactions | None under normal processing.             |
| Conditions to avoid                | Do not freeze.                            |
| Incompatible materials             | None known based on information supplied. |

Hazardous decomposition products None known based on information supplied.

# 11. Toxicological information

# Information on likely routes of exposure

#### **Product Information**

Inhalation

Specific test data for the substance or mixture is not available.

| Eye contact             | Specific test data for the substance or mixture is not available.  |
|-------------------------|--|
| Skin contact            | May cause sensitization by skin contact (based on components). Repeated or prolonged skin contact may cause allergic reactions with susceptible persons. Specific test data for the substance or mixture is not available. |
| Ingestion               | Specific test data for the substance or mixture is not available.  |
| Symptoms related to the | physical, chemical and toxicological characteristics   |

Symptoms Itching. Rashes. Hives. Prolonged contact may cause redness and irritation.

Acute toxicity

#### Numerical measures of toxicity

#### The following values are calculated based on chapter 3.1 of the GHS document:

| ATEmix (oral)   | 31,931.80 mg/kg  |
|-----------------|------------------|
| ATEmix (dermal) | 198,901.20 mg/kg |

#### **Component Information**

| Chemical name                       | Oral LD50         | Dermal LD50           | Inhalation LC50     |
|-------------------------------------|-------------------|-----------------------|---------------------|
| Dipropylene glycol monomethyl ether | = 5.35 g/kg (Rat) | = 9500 mg/kg (Rabbit) | -                   |
|                                     |                   |                       |                     |
| Hexanedioic acid, dihydrazide       | -                 | -                     | > 5.3 mg/L (Rat)4 h |

#### Delayed and immediate effects as well as chronic effects from short and long-term exposure

| Skin corrosion/irritation         | No information available.            |
|-----------------------------------|--------------------------------------|
| Serious eye damage/eye irritation | No information available.            |
| Respiratory or skin sensitization | May cause an allergic skin reaction. |
| Germ cell mutagenicity            | No information available.            |
| Carcinogenicity                   | No information available.            |
| Reproductive toxicity             | No information available.            |
| STOT - single exposure            | No information available.            |
| STOT - repeated exposure          | No information available.            |
| Aspiration hazard                 | No information available.            |

# 12. Ecological information

Ecotoxicity

The environmental impact of this product has not been fully investigated.

| Chemical name  | Algae/aquatic plants | Fish  | Toxicity to<br>microorganisms | Crustacea                               |

The Montreal Protocol on Substances that Deplete the Ozone Layer Not applicable

The Stockholm Convention on Persistent Organic Pollutants Not applicable

The Rotterdam Convention Not applicable

International Inventories Contact supplier for inventory compliance status

## US Federal Regulations

#### SARA 313

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product contains a chemical or chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372.

| Chemical name | SARA 313 - Threshold Values % |
|---------------|-------------------------------|
|               |                               |

| Dipropylene glycol monomethyl ether - 34590-94-8 | 1.0 |
|--|-----|

#### SARA 311/312 Hazard Categories

Should this product meet EPCRA 311/312 Tier reporting criteria at 40 CFR 370, refer to Section 2 of this SDS for appropriate classifications.

#### **CWA (Clean Water Act)**

This product does not contain any substances regulated as pollutants pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42).

#### **CERCLA**

This material, as supplied, does not contain any substances regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material.

#### US State Regulations

#### **California Proposition 65**

This product contains the following Proposition 65 chemicals:.

| Chemical name            | California Proposition 65 |
|--------------------------|---------------------------|
| 1,4-Dioxane - 123-91-1   | Carcinogen                |
| Ethylene oxide - 75-21-8 | Carcinogen                |
|                          | Developmental             |
|                          | Female Reproductive       |
|                          | Male Reproductive         |

#### U.S. State Right-to-Know Regulations

| Chemical name                 | New Jersey | Massachusetts | Pennsylvania |
|-------------------------------|------------|---------------|--------------|
| Dipropylene glycol monomethyl | Х          | Х             | Х            |
| ether                         |            |               |              |
| 34590-94-8                    |            |               |              |
| Limestone                     | Х          | X             | Х            |
| 1317-65-3                     |            |               |              |
| Isopropyl alcohol             | Х          | X             | Х            |
| 67-63-0                       |            |               |              |
| Propylene glycol monomethyl   | Х          | X             | Х            |
| ether                         |            |               |              |
| 107-98-2                      |            |               |              |
| 1,4-Dioxane                   | Х          | X             | Х            |
| 123-91-1                      |            |               |              |
| Ethylene oxide                | Х          | X             | Х            |
| 75-21-8                       |            |               |              |
