**Compliant SDS for GHS - Canada WHMIS 2015** 

# **SAFETY DATA SHEET**

**Klein Blue Milk Paint** 

| Section 1. Identification        |                         |
|----------------------------------|-------------------------|
| GHS product identifier           | : Klein Blue Milk Paint |
| Product code                     | : BLK 425               |
| Other means of<br>identification | : Not available.        |
| Product type                     | : Liquid.               |

#### Relevant identified uses of the substance or mixture and uses advised against

| Identified uses |  |
|-----------------|--|
| Wood paint.     |  |

| Supplier's details   | : General Finishes<br>2462 Corporate Circle<br>East Troy, WI 53120<br>U.S.A.<br>Phone no.: 262-642-4545<br>Toll free no.: 1-800-783-6050<br>Fax no.: 262-642-4707<br>Web: GeneralFinishes.com |
|--|---|
| Emergency telephone<br>number (with hours of<br>operation) | : CHEMTREC, U.S.: 1-800-424-9300 International: +1-703-527-3887 (24/7)  |

## Section 2. Hazard(s) identification

| OSHA/HCS status                            | : While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product. |
|--|--|
| Classification of the substance or mixture | : Not classified.  |
| GHS label elements                         |  |
| Signal word                                | : No signal word.  |
| Hazard statements                          | : No known significant effects or critical hazards.  |
| Precautionary statements                   |  |
| Prevention                                 | : Not applicable.  |
| Response                                   | : Not applicable.  |
| Storage                                    | : Not applicable.  |
| Disposal                                   | : Not applicable.  |
| Hazards not otherwise<br>classified (US)   | : None known.  |

### Section 3. Composition/information on ingredients

#### Substance/mixture

: Mixture

### Other means of

identification

- : Not available.
- Ingredient name
   % (w/w)
   CAS number

   Limestone
   7 13
   1317-65-3

   Talc
   1 5
   14807-96-6

United States: The exact percentage (concentration) in the composition has been withheld as a trade secret in accordance with paragraph (i) of §1910.1200.

Canada: The exact percentage (concentration) in the composition has been withheld as a trade secret in accordance with the amended HPR as of April 2018.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First aid measures

#### Description of necessary first aid measures

| Eye contact  | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.  |
|--------------|--|
| Inhalation   | : Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.  |
| Skin contact | : Flush contaminated skin with plenty of water. Get medical attention if symptoms occur.   |
| Ingestion    | : Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. |

#### Most important symptoms/effects, acute and delayed

| Potential acute health effe | <u>cts</u>  |
|-----------------------------|---|
| Eye contact                 | : No known significant effects or critical hazards.   |
| Inhalation                  | : No known significant effects or critical hazards.   |
| Skin contact                | : No known significant effects or critical hazards.   |
| Ingestion                   | : No known significant effects or critical hazards.   |
| Over-exposure signs/sym     | <u>otoms</u>  |
| Eye contact                 | : No known significant effects or critical hazards.   |
| Inhalation                  | : No known significant effects or critical hazards.   |
| Skin contact                | : No known significant effects or critical hazards.   |
| Ingestion                   | : No known significant effects or critical hazards.   |
|                             |   |
| Indication of immediate me  | dical attention and special treatment needed, if necessary  |
| Notes to physician          | <ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large<br/>quantities have been ingested or inhaled.</li> </ul> |
| Specific treatments         | : No specific treatment.  |
| Protection of first-aiders  | : No action shall be taken involving any personal risk or without suitable training.  |

#### See toxicological information (Section 11)

### Section 5. Fire-fighting measures

| Extinguishing media                            |   |
|--|---|
| Suitable extinguishing media                   | : In case of fire, use water spray (fog), foam, dry chemical or CO <sub>2</sub> .   |
| Unsuitable extinguishing media                 | : None known.   |
| Specific hazards arising from the chemical     | : No specific fire or explosion hazard.   |
| Hazardous thermal decomposition products       | : Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide<br>metal oxide/oxides  |
| Special protective actions for fire-fighters   | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.                         |

### Section 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures : No action shall be taken involving any personal risk or without suitable training. For non-emergency Evacuate surrounding areas. Keep unnecessary and unprotected personnel from personnel entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment. If specialized clothing is required to deal with the spillage, take note of any information in For emergency responders : Section 8 on suitable and unsuitable materials. See also the information in "For nonemergency personnel". **Environmental precautions** : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Methods and materials for containment and cleaning up

Spill
 Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

### Section 7. Handling and storage

#### Precautions for safe handling

| Protective measures                    | : Put on appropriate personal protective equipment (see Section 8).   |
|--|---|
| Advice on general occupational hygiene | <ul> <li>Eating, drinking and smoking should be prohibited in areas where this material is<br/>handled, stored and processed. Workers should wash hands and face before eating,<br/>drinking and smoking. See also Section 8 for additional information on hygiene<br/>measures.</li> </ul> |

### Section 7. Handling and storage

| Conditions for safe storage, | : Store in accordance with local regulations. Store in original container protected from  |
|------------------------------|---|
| including any                | direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials   |
| incompatibilities            | (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use. |

### Section 8. Exposure controls/personal protection

#### **Control parameters**

#### **United States**

#### **Occupational exposure limits**

| Ingredient name | Exposure limits   |
|-----------------|---|
| Limestone       | OSHA PEL (United States, 5/2018).<br>TWA: 5 mg/m <sup>3</sup> 8 hours. Form: Respirable<br>fraction<br>TWA: 15 mg/m <sup>3</sup> 8 hours. Form: Total dust<br>NIOSH REL (United States, 10/2016).<br>TWA: 5 mg/m <sup>3</sup> 10 hours. Form: Respirable<br>fraction<br>TWA: 10 mg/m <sup>3</sup> 10 hours. Form: Total |
| Talc            | ACGIH TLV (United States, 3/2020).<br>TWA: 2 mg/m <sup>3</sup> 8 hours. Form: Respirable<br>fraction<br>NIOSH REL (United States, 10/2016).<br>TWA: 2 mg/m <sup>3</sup> 10 hours. Form: Respirable<br>fraction  |

#### <u>Canada</u>

#### **Occupational exposure limits**

| Ingredient name | Exposure limits  |
|-----------------|--|
| Limestone       | CA British Columbia Provincial (Canada,<br>1/2020).<br>TWA: 10 mg/m <sup>3</sup> 8 hours. Form: Total dust<br>STEL: 20 mg/m <sup>3</sup> 15 minutes.<br>TWA: 3 mg/m <sup>3</sup> 8 hours. Form: respirable<br>fraction<br>CA Quebec Provincial (Canada, 7/2019).<br>TWAEV: 10 mg/m <sup>3</sup> 8 hours. Form: Total dust.<br>CA Alberta Provincial (Canada, 6/2018).<br>8 hrs OEL: 10 mg/m <sup>3</sup> 8 hours.<br>CA Saskatchewan Provincial (Canada,<br>7/2013).<br>STEL: 20 mg/m <sup>3</sup> 15 minutes.<br>TWA: 10 mg/m <sup>3</sup> 8 hours. |
| Talc            | CA British Columbia Provincial (Canada,<br>1/2020).<br>TWA: 2 mg/m <sup>3</sup> 8 hours. Form: Respirable<br>CA Quebec Provincial (Canada, 7/2019).<br>TWAEV: 3 mg/m <sup>3</sup> 8 hours. Form: Respirable<br>dust.<br>CA Alberta Provincial (Canada, 6/2018).  |

## Section 8. Exposure controls/personal protection

|                                  | 8 hrs OEL: 2 mg/m <sup>3</sup> 8 hours. Form:<br>Respirable particulate<br><b>CA Ontario Provincial (Canada, 6/2019).</b><br>TWA: 2 mg/m <sup>3</sup> 8 hours. Form: Respirable<br>particulate matter.<br>TWA: 2 f/cc 8 hours.<br><b>CA Saskatchewan Provincial (Canada,</b><br><b>7/2013).</b><br>TWA: 2 mg/m <sup>3</sup> 8 hours. Form: respirable<br>fraction   |  |
|----------------------------------|---|--|
| Appropriate engineering controls | : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.  |  |
| Environmental exposure controls  | : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation.   |  |
| Individual protection meas       | <u>sures</u>  |  |
| Hygiene measures                 | <ul> <li>Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period.</li> <li>Appropriate techniques should be used to remove potentially contaminated clothing.</li> <li>Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.</li> </ul> |  |
| Eye/face protection              | Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.   |  |
| Skin protection                  |   |  |
| Hand protection                  | Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.   |  |
| Body protection                  | : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.   |  |
| Other skin protection            | <ul> <li>Appropriate footwear and any additional skin protection measures should be selected<br/>based on the task being performed and the risks involved and should be approved by a<br/>specialist before handling this product.</li> </ul>   |  |
| Respiratory protection           | : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.  |  |

## Section 9. Physical and chemical properties

| Appearance             |                      |
|------------------------|----------------------|
| Physical state         | : Liquid. [Viscous.] |
| Color                  | : Blue.              |
| Odor                   | : Slight.            |
| Odor threshold         | : Not available.     |
| рН                     | : 7.6 to 8.5         |
| Melting/freezing point | : Not available.     |

### Section 9. Physical and chemical properties

| -  |   |
|--|---|
| Initial boiling point and boiling range      | : Not available.                                |
| Flash point                                  | : Not available.                                |
| Evaporation rate                             | : Not available.                                |
| Flammability (solid, gas)                    | : Not available.                                |
| Lower and upper explosive (flammable) limits | : Not available.                                |
| Vapor pressure                               | : Not available.                                |
| Vapor density                                | : Not available.                                |
| Relative density                             | : 1.16  |
| Solubility                                   | : Soluble in water.                             |
| Solubility in water                          | : Soluble.                                      |
| Partition coefficient: n-<br>octanol/water   | : Not applicable.                               |
| Auto-ignition temperature                    | : Not available.                                |
| Decomposition temperature                    | : Not available.                                |
| Viscosity                                    | : Dynamic: 1000 to 3000 mPa⋅s (1000 to 3000 cP) |
| VOC content                                  | : <50 g/L                                       |
| Flow time (ISO 2431)                         | : Not available.                                |

### Section 10. Stability and reactivity

| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.           |
|------------------------------------|--|
| Chemical stability                 | : The product is stable.   |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.                      |
| Conditions to avoid                | : Protect from freezing.   |
| Incompatible materials             | : Reactive or incompatible with the following materials: oxidizing materials.                          |
| Hazardous decomposition products   | : Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

### Section 11. Toxicological information

#### Information on toxicological effects

#### **Acute toxicity**

There is no data available.

#### Irritation/Corrosion

| Product/ingredient name | Result               | Species | Score | Exposure                           | Observation |
|-------------------------|----------------------|---------|-------|------------------------------------|-------------|
| Talc                    | Skin - Mild irritant | Human   | -     | 72 hours 300<br>µg<br>Intermittent | -           |

### Section 11. Toxicological information

#### **Sensitization**

There is no data available.

#### **Mutagenicity**

There is no data available.

#### **Carcinogenicity**

#### **Classification**

| Product/ingredient name | OSHA | IARC | NTP |
|-------------------------|------|------|-----|
| Talc                    | -    | 3    | -   |

#### Reproductive toxicity

There is no data available.

#### **Teratogenicity**

There is no data available.

#### Specific target organ toxicity (single exposure)

There is no data available.

#### Specific target organ toxicity (repeated exposure)

There is no data available.

#### **Aspiration hazard**

There is no data available.

| Information on the likely routes of exposure | :          | Routes of entry anticipated: Oral, Dermal, Inhalation.     |
|--|------------|--|
| Potential acute health effects               | <u>s</u>   |  |
| Eye contact                                  | :          | No known significant effects or critical hazards.          |
| Inhalation                                   | 1          | No known significant effects or critical hazards.          |
| Skin contact                                 | 1          | No known significant effects or critical hazards.          |
| Ingestion                                    | 1          | No known significant effects or critical hazards.          |

### Section 11. Toxicological information

| Potential delayed effects    | : No known significant effects or critical hazards. |
|------------------------------|---|
| Potential chronic health eff | ects  |
| General                      | : No known significant effects or critical hazards. |
| Carcinogenicity              | : No known significant effects or critical hazards. |
| Mutagenicity                 | : No known significant effects or critical hazards. |

Reproductive toxicity : No known significant effects or critical hazards.

#### Numerical measures of toxicity

Acute toxicity estimates

There is no data available.

### Section 12. Ecological information

#### **Toxicity**

There is no data available.

#### Persistence and degradability

There is no data available.

#### **Bioaccumulative potential**

There is no data available.

#### **Mobility in soil**

Soil/water partition coefficient (Koc)

: Not available.

Other adverse effects : No known significant effects or critical hazards.

### Section 13. Disposal considerations

**Disposal methods** : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

### Section 14. Transport information

| Environmental<br>hazards      | No.                | No.                | No.            | No.            |

**AERG** : Not applicable

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not available. to IMO instruments

### Section 15. Regulatory information

| U.S. Federal regulations  | : TSCA 4(a) final test rules: Octamethylcyclotetrasiloxane                    |
|---|---|
|   | TSCA 5(a)2 proposed significant new use rules: N-methyl-2-pyrrolidone         |
|   | TSCA 5(a)2 final significant new use rules: Perfluorooctanoic acid            |
|   | TSCA 8(a) PAIR: (2-Methoxymethylethoxy)propanol; Octamethylcyclotetrasiloxane |
|   | TSCA 8(a) CDR Exempt/Partial exemption: Not determined                        |
|   | Clean Water Act (CWA) 311: Cyclohexane; Phosphoric acid                       |
| Clean Air Act Section 112<br>(b) Hazardous Air<br>Pollutants (HAPs) | : Listed  |
| Clean Air Act Section 602<br>Class I Substances                     | : Not listed  |
| Clean Air Act Section 602<br>Class II Substances                    | : Not listed  |
| DEA List I Chemicals<br>(Precursor Chemicals)                       | : Not listed  |
| DEA List II Chemicals<br>(Essential Chemicals)                      | : Not listed  |
| <u>SARA 302/304</u>   |   |
| Composition/information   | on ingredients  |
| No products were found.   |   |
| SARA 304 RQ   | : Not applicable.   |

### Section 15. Regulatory information

#### SARA 311/312

Classification

: Not applicable.

#### **Composition/information on ingredients**

No products were found.

#### State regulations

**Massachusetts** 

**New York** 

- : The following components are listed: Limestone; Talc
- **New Jersey**

- : None of the components are listed.
- : The following components are listed: Limestone; Talc
- **Pennsylvania**
- : The following components are listed: Limestone; Talc

#### California Prop. 65

🗥 WARNING: This product can expose you to chemicals including Crystalline silica, respirable powder, which is known to the State of California to cause cancer, and N-methyl-2-pyrrolidone and Perfluorooctanoic acid, which are known to the State of California to cause birth defects or other reproductive harm. For more information go to www. P65Warnings.ca.gov.

| Ingredient name                       | No significant risk<br>level | Maximum<br>acceptable dosage<br>level |
|---------------------------------------|------------------------------|---------------------------------------|
| Crystalline silica, respirable powder | -                            | -                                     |
| N-methyl-2-pyrrolidone                | -                            | Yes.                                  |
| Perfluorooctanoic acid                | -                            | -                                     |

#### **Canadian lists**

**Canadian NPRI** 

: None of the components are listed.

**CEPA Toxic substances** 

: None of the components are listed.

#### International regulations

Chemical Weapon Convention List Schedules I, II & III Chemicals

Not listed.

#### **Montreal Protocol**

Not listed.

Stockholm Convention on Persistent Organic Pollutants Not listed.

#### **Rotterdam Convention on Prior Informed Consent (PIC)**

Not listed.

### **UNECE Aarhus Protocol on POPs and Heavy Metals**

Not listed.

#### **Inventory list**

Canada : Not determined. United States (TSCA 8b) : All components are active or exempted.

### Section 16. Other information

#### Procedure used to derive the classification

|                                | Classification  | Justification                                  |
|--------------------------------|---|--|
| Not classified.                |   |  |
| <u>History</u>                 |   |  |
| Date of issue/Date of revision | : 04/30/2021  |  |
| Date of previous issue         | : 01/15/2018  |  |
| Version                        | : 4   |  |
| Prepared by                    | : KMK Regulatory Services Inc.  |  |
